## Overview

This document explains what a CAMpRA Accredited Aire is and what this means to the site.

## What is a CAA

This is an Aire in the UK that has been inspected by a member of CAMpRA using the checklist that can be download from our website.

Any member of CAMpRA may inspect an Aire, we suggest someone local to it.

It doesn't matter who runs the Aire as this is an independent Certificate issued by us declaring that the Aire meets certain criteria.

Please let us know you are going to inspect an Aire by sending us a message via the [Contact page](#) and email us the filled in form when you have completed the inspection. We will get back to you to confirm our decision and if accepted, the Aire will be sent a Certificate for display, and it will also be marked on [www.searchforsites.co.uk](http://www.searchforsites.co.uk) as a CAA.

## Appendix 1

### Documents in this Series

Name	Overview
<a href="#">Introduction to Aires</a>
